

COLONY HOTEL

& CABAÑA CLUB • DELRAY BEACH

Colony Hotel & Cabana Club Environmental Commitment

We strive to provide guests and customers with friendly service while operating in all departments as a friend of earth's ecosystems, a supporter of local historic and cultural heritage, and an active participant in the regional social and economic community. We believe a commitment to protect and nurture our world is essential for the protection and preservation of all living things on this earth.

Without the cooperation and dedication of our employees, our environmental programs would not be successful. We are proud of the work the employees do and expect all of our employees, whether seasoned or just beginning, to work towards the goal of a safe and healthy planet and a clean environment.
